this book offers a unique panoramic survey of the state of animal law in twenty six countries and in the legal system of the european union the authors give a brief introduction to each jurisdiction examine key issues and formulate recommendations the contributions provide ample opportunities for legal comparative studies touching on constitutional law criminal law civil law environmental law and administrative law and discuss the crucial role of ngos and civil society in raising awareness

for the plight of animals the contributions show the mature stage reached by the discipline of animal law which is gaining attention in wider circles the book discusses wildlife agricultural animals experimental animals service animals stray animals and others one of the topics is the constitutionalisation of animal welfare with a growing number of countries amending their constitutions to include the protection of animals or considering such amendments other topics include the trend of moving away from the age old legal classification of animals as mere things and the persistent weaknesses in the implementation of legal provisions for the protection of animals this book will be of keen interest to the worldwide animal law community legal comparatists legal theorists policy makers judges law enforcement officials as well as veterinary doctors federico dalpane is an assistant professor at kimep university college of social sciences maria baideldinova is an assistant professor at kimep university school of law

this book focuses on the closely interlinked areas of refugee migration and health it discusses the main challenges of the recent unprecedented extremely diverse and mostly unregulated refugee migration wave for germany and europe and offers a broader view of refugee health from a european perspective health issues can lead to several challenges for refugees as well as healthcare providers and as such the book also examines the requirements for the management of migrant populations in terms of medical care and health system adaptations and includes theoretical aspects of refugee migration and health as well as various perspectives on the latest developments lastly it describes the healthcare system demands and responses for short and long term care of refugees

since the late twentieth century there has been a strategic campaign to recover the impact of victorian women writers in the field of english literature however with the increased understanding of the importance of interdisciplinarity in the twenty first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement

the management of knowledge created in an organization not only enables reuse of knowledge but also adds value to the organization itself preventing duplication of intellectual effort it saves economic and human resources leading to the creation of new information this book gathers the wisdom of knowledge managers and researchers in the context of the library and will be a valuable reference source for all libraries

a comprehensive primer and reference this book provides pharmacists and health practitioners the relevant science and policy concepts behind biologics biosimilars and biobetters from a practical and clinical perspective explains what pharmacists need to discuss the equivalence efficacy safety and risks of biosimilars with physicians health practitioners and patients about guides regulators on pragmatic approaches to dealing with these drugs in the context of rapidly evolving scientific and clinical evidence balances scientific information on complex drugs with practical information such as a checklist for pharmacists

includes beginning sept 15 1954 and on the 15th of each month sept may a special section school library journal issn 0000 0035 called junior libraries 1954 may 1961 also issued separately

research on the cutting edge of economics ecology and ethics is presented in this timely study building from a theoretical critique of the tradition of cost benefit analysis the contributors lay the foundation for a macroeconomics of environmental sustainability and distributive justice attention is then turned to three of the most critical areas of social and environmental applied research biodiversity climate change and energy the contributors redefine progress away from growth and toward development to this end the first section of the book tackles the dominant framework used in the us today to evaluate tradeoffs between economic growth and its inherent externalities succeeding chapters cover a wide variety of studies related to biodiversity health and energy each section is anchored with overviews by top scholars in these areas including herman daly carl mcdaniel stephen schneider and nathan hagens and followed by detailed analyses reflecting the

transdisciplinary approach of ecological economics students and scholars of ecological environmental and natural resource economics sustainability sciences and environmental studies will find this book of great interest non profit and government agencies in search of methods and cases that merge the study of ecology and economics will also find the analyses of great practical value

as the world s population continues to grow the continual development of riparia areas stresses stream ecosystems these collected articles aim to provide researchers aquatic resource managers land use planners and others with the results of recent studies of the effects of urbanization on stream ecosystems by presenting fifteen case studies and five regional comparisons the editors of these proceedings hope to help protect streams form the damages of what they recognize as inevitable urbanization foci of the studies include the effects of urbanization on biological diversity and populations geology hydrology and economics
